

I have just been informed that you are considering expanding LPFM service that could affect my KLOVE station that my family and I listen to on a daily basis. I am currently, and have been for almost two years, financially supporting this station because it is so important to my family. I have two young daughters and we spend a lot of time on the road together commuting to school and so forth. This station is very important, especially to my oldest daughter. She loves this station so much that she listens to it even at bedtime. The values that this station promotes are so important to me as a parent. There are no other radio stations that my children would listen to that have these values. Without this station, we wouldn't have a single station on our radio dial to listen to. Please consider my comments when you make your decision about expanding service in these LPFM stations.

Signed,
Jana R. Rigdon
A very concerned parent
